

SUSTAINABLE ENVIRONMENT POLICY STATEMENT

Adriatic 42 Yard is a regional leader and destination of choice committed to provide Yacht Repair and Services that meets or exceeds customer expectations. Our fundamental principle sets the framework for our objectives and actions to continually improve to achieve "Zero Harm to People, Assets, Community and the Environment". Adriatic 42 strives to achieve Sustainable Environmental Management Excellence by ensuring our initiatives are aligned with the best practices, continual improvement, and in line with AD42's Principles, HSE Pillars and Policies.

Adriatic 42 commits to achieve excellence in protecting and promoting a Sustainable Environment by:

- Effectively preventing and controlling of potential sources of pollution in accordance with best management practices.
- Complying with all relevant Environmental obligations related to our operations.
- Promoting and implementing Environmentally sustainable initiatives aimed to reduce Carbon Footprint.
- Sustainable Procurement and utilization of raw materials relevant to products and services offered to interested parties.
- Effective communication of the Sustainable Environment Policy to employees and interested parties to ensure compliance to EMS requirements and compliance obligations.
- Achieve Carbon Footprint reduction aligned with Montenegro's climate commitments and the EU's environmental standards, supporting both national decarbonization efforts and long-term business sustainability.
- Continuously strive to improve our Environmental Performance.

Adriatic 42's Environment Management System will ensure a continual improvement to support achieving our Sustainable Environmental objectives.

"ZERO HARM"

To People, Assets, Community, and the Environment.
